

Why Zap with Electricity?

We're becoming familiar with blood, lymph and tissue electrification as introduced by Bob Beck. Here's a few stories and quotes to help us get the picture as to how it works:

Zapping on the Farm

"... a growing number of farmers are zapping themselves to cure illnesses such as Ross River virus, by using their electric fences! It all started when a farmer in Bunbury, in southwest Western Australia, was accidentally pinned by a young bull against a 7,500-volt electric fence. The farmer had contracted Ross River virus several months earlier, as confirmed by blood tests, but his symptoms have disappeared since his encounter with the fence.

Two weeks later, a workmate, also diagnosed with Ross River virus, decided to try the same treatment. His symptoms have also disappeared!"

Nexus, August–Sept. 1996.

Improving Cell Nourishment

"We have known about blood proteins for a long time in Germany; they have discovered that when the energy fields are reduced in the spaces around the cells, the blood proteins will cluster; and even the lymphatics have a difficult time in removing them. ... They have also discovered that electricity will dissipate the clustered proteins."

Professor Doctor Friedrich M. Plog as quoted in

The Golden Seven Plus One, C. Samuel West DN, ND, www.speedhealing.com

"Shocking treatment proposed for AIDS"

"Zapping the AIDS virus with low-voltage electric current can nearly eliminate its ability to infect human white blood cells cultured in the laboratory, reports a research team at the Albert Einstein College of Medicine in New York City.

"William D. Lyman and his colleagues found that exposure to 50 to 100 microamperes of electricity—comparable to that produced by a cardiac pacemaker—reduced the infectivity of the AIDS virus (HIV) by 50 to 95 percent. Their experiments, described March 14 in Washington, D.C., at the First International Symposium on Combination Therapies, showed that the shocked viruses lost the ability to make an enzyme crucial to their reproduction, and could no longer cause the white cells to clump together—two key signs of virus infection."

White Blood Cells Operate Electrically

“White cells (leukocytes) kill bacteria and pathogenic fungi by electrocuting them. Discovered by Jacques Schrenzel and Karl Heinz Krause, Geneva University Hospital, Switzerland, this defense mechanism is triggered as soon as receptors of the white cell detect the microbe’s presence. ... This discovery might open new lines of research on immunity deficiencies in patients who are deprived of this enzymatic system.”

Eliminating Blood Parasites

Using a darkfield microscope, the late Dr. Alfons Weber of Germany discovered parasites in the blood cells of all his cancer patients. Two Healing Practitioners in Berlin, Bea Langhammer and Thomas Blasig, have observed that the quickest way to clear the parasites from the blood cells is the use of blood electrification and magnetic pulsing along with a nutritional program.

Struck by Lightning!

“My archives contain a tantalizing report from several decades ago describing an authenticated record of an older man who was struck by lightning, survived, and subsequently grew a third set of teeth and a bushy head of youthful new dark hair. His grossly metastasized, inoperable cancers vanished. He threw away his glasses and cane ...”
